12th Annual Global Providers' Conference

South San Francisco, CA | June 21 - 23, 2019

The Global Providers' Conference is our biggest and most exciting event every year! This summer in South San Francisco, join hundreds of practitioners from around the world to share ideas, network, and discover new strategies for teaching social competencies. This conference is intended for those who are already familiar with the methodology and would like to expand their skill set. Join us for inspiration, information, and innumerable more from the thought-leading lineup at our Providers' Conference.

This year's theme: Treatment Journeys for Different Ages and Issues

About Social Thinking

Foster social-emotional learning and social competencies with our groundbreaking strategies and tools. Help individuals ages 4–80 with solid to strong language and learning abilities (from autism spectrum levels 1 and 2 to ADHD to typically developing) communicate more effectively, improve social interpretation, advance personal problem solving, build relationships, and ultimately—experience greater well-being.

For 20+ years, founder Michelle Garcia Winner and other experts have created novel ways to teach social competencies through social-emotional learning. Our work is based on research in human social development, social communication, anxiety management, neuroscience, and more.

We're thrilled when we hear from educators, clinicians, and families around the world that the Social Thinking Methodology has helped them change lives, and we'd love to help you do the same!

Who We Help

While our deeper work is for individuals age 4+ with solid learning and language skills (autism spectrum levels 1 & 2, ADHD, and other social communication challenges), a subset of our work is being adopted into mainstream classrooms and workplaces around the world to improve social-emotional competencies for all.

Who Should Attend?

In short—anyone who wants to help those with solid learning and language skills improve social competencies: speech-language pathologists, special and general education teachers, social workers, counselors, school and clinical psychologists, family members and caregivers, occupational therapists, behavior specialists, school administrators, and many others.

The Social Thinking Methodology builds:

- social competencies
- social self-awareness
- perspective taking
- self-regulation
- executive functioning
- social skills
- social-emotional understanding
- organizational systems
- reading comprehension of literature
- written expression, and more...

Kick off the Providers' Conference with a keynote by our very own Michelle Garcia Winner and Pamela Crooke! Social Behavior Mapping is one of our most practical treatment* frameworks; it's packed with teachable moments. You may have wondered at some point, "How do I teach this in a more meaningful way?" Be there as Michelle and Pam reveal the three brand-new levels of Social Behavior Mapping. Each level teaches different elements of the Social Competency Model, syncing these two dynamic frameworks into one comprehensive teaching plan. Plus, get practical experience creating Social Behavior Maps tailored to your students, clients, and patients. After the keynote presentation and a complimentary buffet lunch, attend four of eight breakout sessions to learn strategies from the cutting edge of social competency treatment and research.

**Saturday, June 22****Emotions Part 2: Emotion-Based Strategies to Foster Relationship Development and Academic and Career Performance** | ages 5 - adult

Michelle Garcia Winner

Last year Michelle Garcia Winner presented her brand-new course *Emotions Part 1*—here's your chance to expand your knowledge on this critical topic by attending *Emotions Part 2*! In this full-day keynote, Michelle will expand on the concepts introduced in Part 1 and teach novel treatment* tools and strategies to help students, clients, and patients develop emotional awareness, explore how to read the emotions and intentions of others, emotionally sync with others, and work through social anxiety. Discover how these skills are required for developing friendships and being successful in the classroom and the 21st century workplace. Come learn how to help others and enjoy learning about yourself as well!

**Sunday, June 23****Case Journeys: Treatment Planning for Improving Social Competencies**
ages 4 - adult

Michelle Garcia Winner, Pamela Crooke, Nancy Clements, Kari Zweber Palmer, and Ryan Hendrix

Join us for the debut of this brand-new course! Watching a clinical case study, or "case journey," unfold overtime can be very informative and powerful—gaining tools to unpack the case journeys of the individuals you support is even better. In this course, we explore several clinical case journeys and apply a unique six-step decision-making template as a guide through the treatment* process. Learn a variety of concepts, frameworks, and strategies to build social competencies that align with an individual's age, personality, social learning strengths/challenges, developmental abilities, and mental health challenges. In the afternoon, we will divide into groups based on student, client, or patient age and explore how different case journeys unfold. Members of the Social Thinking Training and Speakers' Collaborative will share their own clinical case journeys and treatment ideas, and you will get the opportunity to practice using the six-step tool with your own cases. Get lots of hands-on participation and learning in this course!

*Treatment refers to using conceptual and strategy-based frameworks to help individuals improve their social competencies.
