12th Annual Global Providers' Conference

South San Francisco, CA | June 21 - 23, 2019

The Global Providers' Conference is our biggest and most exciting event every year! This summer in South San Francisco, join hundreds of practitioners from around the world to share ideas, network, and discover new strategies for teaching social competencies. This conference is intended for those who are already familiar with the methodology and would like to expand their skill set. Join us for inspiration, information, and innumerable more from the thought-leading lineup at our Providers' Conference.

This year's theme: Treatment Journeys for Different Ages and Issues

About Social Thinking

Foster social-emotional learning and social competencies with our groundbreaking strategies and tools. Help individuals ages 4–80 with solid to strong language and learning abilities (from autism spectrum levels 1 and 2 to ADHD to typically developing) communicate more effectively, improve social interpretation, advance personal problem solving, build relationships, and ultimately—experience greater well-being.

For 20+ years, founder Michelle Garcia Winner and other experts have created novel ways to teach social competencies through social-emotional learning. Our work is based on research in human social development, social communication, anxiety management, neuroscience, and more.

We're thrilled when we hear from educators, clinicians, and families around the world that the Social Thinking Methodology has helped them change lives, and we'd love to help you do the same!

Who We Help

While our deeper work is for individuals age 4+ with solid learning and language skills (autism spectrum levels 1 & 2, ADHD, and other social communication challenges), a subset of our work is being adopted into mainstream classrooms and workplaces around the world to improve social-emotional competencies for all.

In short—anyone who wants to help those with solid learning and language skills improve social competencies: speech-language pathologists, special and general education teachers, social workers, counselors, school and clinical psychologists, family members and caregivers, occupational therapists, behavior specialists, school administrators, and many others.

The Social Thinking Methodology builds:

- social competencies
- social self-awareness
