## 11th Annual Global Providers' Conference

South San Francisco, CA | June 22 - 24, 2018

The Global Providers' Conference is our biggest and most exciting event every year! This summer in South San Francisco, join hundreds of practitioners from around the world to share ideas, network, and discover new strategies for teaching social competencies. This conference is intended for those who are already familiar with the methodology and would like to expand their skill set. Join us for inspiration, information, and innumerable more from the thought-leading lineup at our Providers' Conference.

This year's theme: Emotions: More Than You Think and All That You Feel

### About Social Thinking

Our mission is to help people develop social competencies to better connect with others and live happier, more meaningful lives. We do this by creating concepts, curricula, and materials that serve two purposes:

1. To break down and organize abstract social concepts to educate professionals and family members on how to teach social competencies.
2. To help individuals age 4 through adulthood improve their social competencies to meet their personal, academic, and professional goals. Along the way, we teach how to share space effectively, work as part of a team, and develop relationships—with family, friends, classmates, coworkers, romantic partners, etc.

### Who We Help

While our deeper work is for individuals age 4+ with solid learning and language skills (Asperger's syndrome, ASD levels 1 & 2, ADHD, and other social communication challenges), a subset of our work is being adopted into mainstream classrooms and workplaces around the world to improve social-emotional competencies for all.

### Who Should Attend?

In short—anyone who wants to help those with solid learning and language skills improve social competencies: speech language pathologists, special and general education teachers, social workers, counselors, school and clinical psychologists, family members and caregivers, occupational therapists, behavior specialists, and school administrators, to name a few.

### The Social Thinking Methodology builds:

- social competencies
- social self-awareness
- perspective taking
- self-regulation
- executive functioning
- social skills
- social-emotional understanding
- organizational systems
- reading comprehension of literature
- written expression, and more...

### Continuing Education Available

We are proud to provide access to continuing education credit for:
