

Where You Think a Thought

Words and music by Tom Chapin & Phil Galdston

You got fingers to snap (snap snap), two hands to clap (clap clap)
Ten toes to tap (tap-a-tap-tap), but your brain is where you think a thought

You got legs to walk (left, right), a tongue to talk (blah, blah, blah, blah)
You can walk and squawk (squawk), but your brain is where you think a thought

You got a mouth to drink (slurp slurp), two eyes to blink (blink blink)
One place to think (ohhhhh) and your brain is where you think a thought

You got ears to hear (what?), whoever's near (who?)
Still it's very clear (Yessir!), that your brain is where you think a thought

It's like a picture there, it's underneath your hair, it's where you think
And thinking happens quick, it's like a magic trick, it's like shazaam!
When you think, when you think a thought
When you think, think, think a thought

Every day you grow, there's new stuff to know, new thoughts that flow
In your brain when you think a thought
If you think it through, it might occur to you that I'm thinkin', too
My brain is where I think a thought!

It's like a picture there, it's underneath your hair, it's where you think
And thinking happens quick, it's like a magic trick, it's like shazaam!
When you think, when you think a thought
When you think, think, think a thought

So go on and think (ohhhhh) and if we think in sync (oh, oh)
We'll form a link (cool!) to the thoughts up in our brains
We got a nose to smell (sniff sniff), we got a story to tell, (blah, blah, blah, blah)
Now we know darn well (Yessir!) that our brain is where we think a thought
Our brain is where we think a thought
Our brain is where we think a thought

Where you think, where you think a thought
Where you think, think, think a thought

Show Me What You're Feeling

Words and music by Tom Chapin & Phil Galdston

Well, it starts in the heart of every boy and girl
It flows through your veins, right to your brain
And goes out to the world
When you're happy, you're up and open
When you're sad, you're closing down
When you're scared, you're small and scrunched up
When you're excited, you jump around

So, laugh everybody, ha, ha, ha
Cry everybody, wah, wah, wah
Sing everybody, la, la, la
Shake your head, everybody, nah, nah, nah
Down to the ground, up to the ceiling
Let me know what you know
Show me what you're feeling
Show me what you're feeling

Well, it moves through your muscles, your elbow and your knee
And every time you move, it only goes to prove
That you're a lot like me
When we're mad, our hands are clenched up
With our faces in a frown
When we're calm, we're loose and easy
We let whole wide world go 'round

So, laugh everybody, ha, ha, ha
Cry everybody, wah, wah, wah
Sing everybody, la, la, la
Shake your head, everybody, nah, nah, nah
Down to the ground, up to the ceiling
Let me know what you know
Show me what you're feeling
Show me what you're feeling

Everybody dance, everybody cheer
Let me see you grin from your ear to your ear
Everybody look, everybody see
If I smile at you, you'll smile at me

Show me what you're feeling

The Plan

Words and music by Tom Chapin & Phil Galdston

When it's you and only you
You're alone, all on your own
But when it's you and me and we
There must be a plan

When it's you and only you
It can be fun when you're just one
But when it's you and me and we
We can make a plan

That's the aim, that's the game
To find out all you can
Snoop a little, solve the riddle
And then you'll understand

That it's you and me and we
A special group that's in the loop
That's the place you want to be
It's fun to know the plan

It's so much better, working together
Sticking to the plan

Then it's you and me and we
A special troop that knows the scoop
Cause when the plan is plain to see
And we follow, you and me
That's the greatest place to be
Because you understand
And yes, you know you can
Be a big part of the plan

Think With Your Eyes

Words and music by Tom Chapin & Phil Galdston

Open your eyes, take a look, look real carefully
Is that a grin, over my chin?
Think with your eyes and see
It's all in one place, right here on my face,
and if you look at me
You might find a frown or a smile upside down
Think with your eyes, you'll see
Think with your eyes and see!

Your eyes can be a microscope, seeing close as close can be
Maybe I'm sad, maybe I'm glad
You can tell if you look at me
Your eyes can be a telescope, seeing far as far can see
If I'm happy, you'll know, if I'm not, it'll show
You can tell if you look at me

Open your eyes, take a look, look real carefully
There's many a clue of what you should do
Think with your eyes, you'll see
Think with your eyes and see

Your eyes can be a camera, keep a picture in your mind
Maybe I'm hot, maybe I'm not
You can tell almost every time
Your eyes can be a lighthouse, they can send a special sign
When you're looking at me, you're thinking of me
I can tell almost every time

So, open your eyes, take a look, look real carefully
Is that a grin, over my chin?
Think with your eyes and see
It's all in one place, right here on my face,
and if you look at me
You might find a frown or a smile upside down
Think with your eyes, you'll see
When you're looking at me, I know you're thinking of me
Think with your eyes and see!

In the Group

Words and music by Tom Chapin & Phil Galdston

If it's one, make it two, make it me and you
If it's two, make it three, you and you and me
If it's three, make it four, cause three could use one more
If it's four, make it five, bring this group alive

Everybody has a body
Keep your body in the group
We found our way in, now, let's stay in
Workin', playin' in the group

Make it seven, if it's six, do it just for kicks
If it's seven, make it eight, eight is always great
If it's eight, make it nine
Nine is really fine, if it's nine, make it ten
Then start it all again

Everybody has a body
Keep your body in the group
We found our way in, now, let's stay in
Workin', playin' in the group
Eyes and nose in, fingers, toes in
Knees and elbows in the group
Don't be strayin', let's just stay in
Workin', playin' in the group

One, two, three, four, five, six, seven, more
Eight, nine, ten, then, start all over again

Everybody has a body
Keep your body in the group
No delayin', when you're stayin'
Workin', playin' in the group
Eyes and nose in, fingers, toes in
Knees and elbows in the group
No complainin', keep your brain in
Keep your body, your whole body
Everybody in the group

Listen With All Of You

Words and music by Tom Chapin & Phil Galdston

List'nin'...lookin'...stillin'...
Open...closin'...chillin'...

List'nin' with...lookin' with...stillin' both...
Open up...closin' up...chillin' with...

List'nin' with your...lookin' with your...stillin' both your...
Open up your...closin' up your...chillin' with your...

List'nin' with your ears, lookin' with your eyes, stillin' both your feet
Open up your brain, closin' up your mouth, chillin' with your bottom on a seat
List'nin' with your ears, lookin' with your eyes, stillin' both your feet
Open up your brain, closin' up your mouth, chillin' with your bottom on a seat

Use your whole body, use your whole body
From your head to your toe, using everything you know
Listen with all of you

List'nin' with your ears, lookin' with your eyes, stillin' both your feet
Open up your brain, closin' up your mouth, chillin' with your bottom on a seat
Use your whole body, use your whole body
From your head to your toe, using everything you know
Listen with all of you

Listen...ears, lookin'...eyes
Still both your feet
Open up...brain, closin' up...mouth
Chill...with your bottom on a seat
Listen with your ears, eyes, brain and mouth, while you're
Stillin' both your feet
Listen with your ears, eyes, brain and mouth, while you're
Chillin' with your bottom on a seat

Use your whole body, use your whole body
From your foot to your shin, from your knee to your thigh
From your belly to your chest, from your chin to your eye
From the way down low, to the way up high
Listen with all of you

My Own Detective

Words and music by Tom Chapin & Phil Galdston

Looking for the how to's
Hunting down the good news
There are lots of clues that I can learn
Some are don'ts and some are do's
Don't get angry when I lose
Do let others always take their turn

Gonna be my own detective
Evidence? I will collect it
Every tip, yeah, I'll inspect it, somehow
If I want to stay connected
Gotta track down what's expected
And be my own detective, now

I found out a new fact
When I look, they look back
How I act is all that they can see
So, I use my cool detective tools
To investigate the rules
Now, I can tell what they expect of me

Gonn be my own detective
Evidence? I will collect it
Every tip, yeah, I'll inspect it, somehow
If I want to stay connected
Gotta track down what's expected
And be my own detective, now

Now, when they smile, I can smile
We're connected, you see
Now, when they change, I can change
It's the detective in me

Gonna be my own detective
Evidence? I will collect it
Every tip, yeah, I'll inspect it, somehow
If I want to stay connected
Gotta track down what's expected
And track down what's expected
And be my own detective
I'm gonna stay connected...now!

Look, Think, Guess, Know

Words and music by Tom Chapin & Phil Galdston

When everybody sits down and they all gather' round
Can you guess what I'm thinking? It's Circle Time
When the teacher has a book and she's asking you to look
Can you think what I'm guessing? It's Story Time
First, you take a good long look
And then you think it through
And if you make a real good guess
Maybe you'll know
Maybe you'll know

Look, think, guess, go
Mighty good chance you're gonna know
If you look, think, guess, go
There's a mighty good chance you'll know

When we gather up the blocks and we throw 'em in a box
Can you guess what I'm thinking? It's Cleanup Time
When I'm putting on a coat, put a scarf around my throat
Can you think what I'm guessing? It's Leaving Time
First, you take a good long look
And then you think it through
And if you make a real good guess
Maybe you'll know
I bet you'll know, yes!

Look, think, guess, go
Mighty good chance you're gonna know
If you look, think, guess, go
There's a mighty good chance you'll
Look, think, guess, go
Mighty good chance you're gonna know
If you look, think, guess, go
There's a mighty good chance
Look, think, guess, go
You'll know, I bet you'll know
Look, think, guess, go
There's a mighty good chance
There's a mighty good chance you'll know!

The Incredible, Flexible You

Words and music by Tom Chapin & Phil Galdston

When you've got your own plan
And you don't think you can
Do what the group wants to do
No need to pout, it's easy to work out
For the incredible, flexible you

You can twist, you can turn
You can change, you can learn
It's fun to be a part of a team, it's true!
When there's a surprise, it's a chance to exercise
The incredible, flexible who?
The incredible, flexible you

When you move a little from your plan
You can join with everyone
When you join with everyone you can
Have a lot more fun

When it seems like you're stuck
You're not, you're in luck!
Cause now you know what you can do
Take a moment or two and say hello to the new
Incredible, flexible who?
The incredible, flexible you

When you move a little from your plan
You can join with everyone
When you join with everyone you can
Have a lot of fun

When you've got your own plan
And you don't think you can
Do what your friends want to do
Who knows it's no prob? It's just another job
Who makes no fuss? Who can make a smart adjustment?
Who knows how it's done? Who has more fun?
Than the incredible, flexible
Incredible, flexible.....you!

Size of the Problem

Words and music by Tom Chapin & Phil Galdston

Every day, stuff gets in my way
But I'll be ok 'cause I've learned to say
What's the size of the problem?

And when I know, no need to let my troubles grow
I know where to go and those who know
What to do to solve 'em

If it's small as a mouse, I can fix it myself
If it's big as a house, I can go ask for help
If it's worrying me, there are places to turn, once I learn
To recognize the size of the problem

How big, how short, how tall?
How big, how small, how short, how tall?
How big, how small, how short, how tall?
How big, how short, how tall?

If it's small as a flea, I can fix it myself
If it's big as a tree, I will need someone else
If it's worrying me, there are places to turn, once I learn
The size of the problem

How big, how short, how tall?
How big, how small, how short, how tall?

I'll be ok when stuff gets in my way
Because I've learned to say every day
What's the size of the problem?

How big, how short, how tall?
How big, how small, how short, how tall?

I Know You Know (Imagination)

Words and music by Tom Chapin & Phil Galdston

I know, I know that you know
I imagine, you imagine
I know, I know that you know
If you pretend and I pretend it's one, fun
Imagination

You be a shark, I'll be a whale
Under the sea together
We can be clowns, clowning around
Every night in the circus together
All we've got to do is know that

I know, I know that you know
I imagine, you imagine
I know, I know that you know
If you pretend and I pretend it's one, fun
Imagination

I think some things, you think some things
Some things we think together
I play a game, you play a game
But it's best when we're playing together
All we've got to do is know that

We're fighting a fire, aiming the hose
Up on a ladder together
Or two astronauts, way out in space
Exploring the planets together
All we've got to do is know that

I know, I know that you know
I imagine, you imagine
I know, I know that you know
If you pretend and I pretend it's one, fun, imagination
One, fun
Imagination

You Can Bend

Words and music by Tom Chapin & Phil Galdston

You can bend like a bow when you know how to bend
You can bend like a knee when you need to
You can go with the flow when you know that you must
And trust it'll be okay

You can bounce like a ball when you know how to bounce
You can turn right around when you need to
You can roll like a wheel 'cause you know you can deal
And feel it'll be okay

If something strange comes your way, you can change, it's okay
and say to each new surprise...

I can bend like a bow 'cause I know how to bend
I can bend like a knee when I need to
I can go with the flow when I know that I must
And trust i'll be okay

When something strange comes my way, any time, any day
I can say to each new surprise...

I will bounce like a ball 'cause I know how to bounce
I can turn right around when I need to
I can roll like a wheel 'cause I know I can deal
And feel it'll be okay

We can bend like a bow 'cause we know how to bend
We can bend like a knee when we need to
We can go with the flow when we know that we must
And trust it'll be okay
