supports concepts
taught in Book 2: *The
Group Plan (We-
Thinkers Vol. 1)*

Group Plan Freeze Dance

Activity Directions:

1. Play some music and have students stand up.
2. When the music stops, everyone must freeze.
3. During each freeze, one student must initiate sharing their thoughts to name a silly animal or creature for everyone else to dance like next (*i.e.*, “*now everyone dance like a bear doing ballerina*” or “*now everyone dance like a wizard casting spells*” etc)
4. Students must use their flexible thinking to follow the group plan with each new suggestion; it’s a “we dance plan” not a “me dance plan.”
5. Students must problem solve when they can jump in to share their thought for the next dance theme (*using the strategies of Thinking With Eyes and Listening with Body and Brain*) to notice and initiate)
6. If students have a difficult time initiating and jumping in to share a thought, the coach can create a Powerpoint with a few options on each slide for students to choose from for the group’s next group dancing plan.
